PROJECTS

Ai.ttorney - A Mobile Application for AI-Powered Legal Education and Rights Awareness   *June 2025 – Present*

React Native | Python | NLP | PostgreSQL

- Developed an AI-powered legal mobile application featuring an intelligent chatbot, a law firm locator, integrated lawyer consultation services, and legal knowledge base.

Payroll Management System for GLS Manpower Services   *Feb 2025 – April 2025*

MongoDB | ExpressJS | ReactJS | NodeJS | TailwindCSS | Typescript

- Developed a web-based payroll system automating salary calculations, tax deductions, and payslip generation for GLS Manpower Services.

Unified Attendance and Payroll System for Tiger Cookies MNL   *Aug 2024 – May 2025*

MongoDB | ExpressJS | ReactJS | NodeJS | TailwindCSS

- Created a web-based biometric (facial recognition) attendance tracker with automated payroll processing, reducing manual errors for Tiger Cookies MNL

Artify - Art and Design Showcase Application   *Oct 2024 – Dec 2024*

Kotlin | Firebase

- Developed a creative platform that empowers artists to showcase their work, connect with a vibrant community, and collaborate through features like digital portfolios and feedback tools

USTamp – University of Santo Tomas Approval Management Platform   *Nov 2024 – Dec 2024*

AngularJS | MariaDB | C# | ASP.NET | MaterializeCSS

- Designed a web-based document approval system for the University of Santo Tomas, automating workflows for students, faculty, and staff to submit, review, and approve files efficiently

E-SUMBONG - An Electronic Complaint Reporting Web Application   *Jan 2024 – Apr 2024*

PHP | MySQL | Bootstrap | JavaScript

- Developed an electronic complaint reporting web application (E-SUMBONG) to streamline the submission and management of public complaints online

Hiccup Cafe Ordering System   *Oct 2023 – Dec 2023*

PHP | HTML | CSS | JavaScript | MySQL

- Developed an ordering system for Hiccup Cafe to streamline food and beverage orders, enhance customer experience, and support future franchise operations.

LEADERSHIP & ACTIVITIES

UST TOMCAT   *Dec 2023 – May 2024*

Assistant Director

- Co-directed MOTION 2024, an event by TOMCAT-UST that brought together university media organizations in the Philippines to promote responsible tech and AI use in media.

UST Society of Information Technology Enthusiasts   *Oct 2022 – May 2023*

Associate Team Head for Finance

- Helped in planning the budget and financial logistics for Spill the i-Tea, an event where UST IT alumni shared their academic and professional journeys to current UST IT Students.

EDUCATION

University of Santo Tomas - Manila   *Aug 2022 – Present*

Bachelor of Science in Information Technology
Major in Web and Mobile Application Development

AWARDS

- **Dean's Lister (2022-Present)**
